

WAR CHARITIES NOW CONTROLLED

Collectors for War Charity Funds Must be Registered in Ottawa

Ottawa has moved swiftly to prevent abuses and racketeering in the War of War Charities.

Under a new law, the collection of funds for war charities must be done only by persons who have been registered in Ottawa.

The requirement is that everyone who is to collect for war charities must first register under the War Charities Act and must obtain an authorization from Ottawa in writing before proceeding with any such collection. The only exception is for the collection of funds for the Red Cross.

Allegedly some groups and well-known names have started collections for war charities and also for collections on such illegal lines that have been prohibited by responsible officials in Ottawa.

TREE PLANTING

Wind-Break and Shelter-belts

In an interview given recently to the editor of the "Times," Mr. K. C. Lande and Miss, it was learned that the Forestry Division of the Department of Agriculture has been working on the problem of tree planting throughout the province.

The Forestry Division of the Department of Agriculture has been working on the problem of tree planting throughout the province.

Enemy Aliens Are Required to Register

Official forms and specific instructions for registration by R.C.M.P. of money alien have been received from the Department of Justice. The forms were received on Tuesday of last week. Persons who were absent from the city at September 31, 1939, must register immediately.

MASONIC BANQUET

A gathering of brethren of District No. 14, G.R.A., A.F. & M. took place in Delia on Thursday, Oct. 5. There was a large attendance, and all enjoyed the banquet.

Wool and Wool Grading

Lathbridge Experimental Station Recently the writer of this letter was at Weston, Ontario, and was the grading of a good deal of western wool. It was noticeable that some graders may be interested in some of the impressions gathered on that occasion, especially in view of the fact that some of the observations can mean dollars and cents to the wool producers.

First it might be well to state that all wool is not alike, nor is wool from all areas alike. We are accustomed to official grading of wool and we realize that differences in price, however, apparently many wool growers are not aware of the fact that a similar service is offered by the Dominion Department of Agriculture for the grading of wool. In fact, the producer can obtain information on the product in line with the relative market.

Grading of wool is done on the basis of the quality of the wool, that is, the fineness or coarseness of the fibre, the length of the fibre and the general character and uniformity of the fleece, as well as the relative proportions of clean wool and dirt. Length of fibre is the most important single factor, as it determines whether the wool will be suitable for the clothing or coating.

However, being concluded, the meeting was closed with the Mithras benediction.

A pleasant half-hour was spent over the meeting. Mrs. Roy and Mr. Kemph looked on.

U. F. W. A.

The September meeting of the U. F. W. A. at Delia was held at the home of Mrs. L. Carter, in the chair.

At the close of routine business, plans were discussed as to putting on a social evening. It was decided to have an evening of singing and to hold it on Wednesday evening, November 1st.

Concededly, we are appointed to complete arrangements.

Mrs. G. Edgley served a lovely luncheon.

Movement of Grain

Grain is said to be coming into Delia faster than it can be handled. The grain is being moved to the coast by rail.

Canadian Red Cross

Red Cross is a permanent organization of national societies with more than 15,000,000 adult members in 85 countries, recognized under the Geneva Convention and by international agreement as the only body which has the right to use the emblem of the Army Medical Corps.

Through a permanent international committee, with offices in Geneva, it remains in war time the communication channel through which information about missing persons, prisoners of war and other nationalities in foreign belligerent states is located, identified, supplied with food, clothing and other supplies, and as changed despite the vicissitudes of the national forces.

Open Season on Prairie Chicken and Ruffed Grouse

Owing to the southern boundary of the open season for the above birds has been extended south to the 49th parallel. The regulations printed on the reverse side of the third Game License and on the posters, some confusion has arisen. Therefore, it should be clearly understood there is no open season whatever on the above birds in the Province of Alberta south of the main line of the Canadian National Railway, starting at Birtle in the East and running through Wainwright to the City of Edmonton, and also south through Edson to the boundary of the Forest Reserve, just west of Birtle.

The Health League of Canada

105 Bond Street, Toronto, Ont.

Youth Training and Health

In addition to the national advantage of the Dominion and Provincial Youth Training Programme and to its importance in raising the morale of our young people, this project is important in a large measure to the nation's health.

Nearly 72,000 young men and women have been trained under this plan during Canada's first year ending in March.

The effects of non-employment upon the youth of Canada, so many of whom have had work at one of our leaving schools, have been reflected in a break down of morale, a waste of time and the development of useless habits, also a neglect of health measures.

The Youth Training Programme not only directs the activities of youth into productive channels and revives their hope, but imparts to them the knowledge of the value of work.

In fact, some of the courses, such as those in forestry, require open-air occupations that have a direct bearing on the nation's health.

Besides these courses taking young men into the forest wilderness, there are others which take place in the farm, in factories, mines, machine shops and other industries, for the purpose of the training is broad.

While of the 71,812 trainees in 1938-39, the number placed in employment (5,747), of whom 2,687 were men and 2,060 women, is relatively small, the advantage goes far beyond employment. Of the total for the year 31,378 were in rural training courses and 24,258 given physical training courses.

During the two complete years which the programme has been in existence, 127,000 young Canadians have received beneficial training. Continuation of the programme for three years at least has now been provided by legislation, all the provinces co-operating with the federal authorities. Further expansion of the plan is now possible, and it is expected that next year will bring the benefits of youth training to increasing numbers.

Concededly, we are appointed to complete arrangements.

Mrs. G. Edgley served a lovely luncheon.

Free Book From McCLARY CLINIC

Any one afflicted with hemorrhoids (piles), tonsillitis, nasal polyps, etc., will find a free book, "The McCLARY CLINIC, 100 Elgin Street, Toronto, Ont., will send you a copy of a book published by this institution. The book is full of valuable information—practical advice of one who has been a victim of hemorrhoids, and offers helpful suggestions to any one suffering from these common ills.

The McCLARY CLINIC is the largest institution of its kind in the world. Its treatment is known to be the most effective, and it is the only one of its kind in the world. It is from all over the States, Canada, and the British Empire, that patients are coming to this institution. They will bring you a free book, "The McCLARY CLINIC, 100 Elgin Street, Toronto, Ont., will send you a copy of a book published by this institution. The book is full of valuable information—practical advice of one who has been a victim of hemorrhoids, and offers helpful suggestions to any one suffering from these common ills.

Car and Truck Licenses

Fall License Reductions and Rebates When Plates are Returned to License Branch

During the year reductions in license fees for passenger cars and trucks are provided for under provincial regulations.

The first reduction during the present license year was on Sept. 1, when a cut of 40 per cent was effective for those applying for motor truck licenses. This enabled many operators to take advantage of orders for hauling lumber, other material and also grain early in the fall season, when the highways were dry and in good condition.

Fall License Cut

On October 1, a 40 per cent reduction was allowed for those applying for licenses for passenger cars and pleasure cars. Last year new licenses were issued during this period.

The second reduction will be on January 1, and amounts to 75 per cent of the annual license fee for passenger cars and trucks. These licenses will be good until March 31.

Provincial license regulations also provide for rebates being allowed when license plates are turned in to the license branch, either directly or through branch offices of the Alberta Motor Association.

Up to the end of Sept. a rebate of 30 per cent of the license fee paid was allowed when passenger car plates were turned back to the license branch.

License Rebates

For the year ending January 1, 1940, the rebate on passenger car licenses, when the plates are turned in, will be 20 per cent.

On motor trucks there will be a 20 per cent rebate when license plates are turned over to the license branch, from now up to January 10th.

Last year, according to official figures, about \$50,000 was paid out by the provincial government when cars were taken out of service during the winter and owners applied for license rebates.

Cheap Transportation While They Last!

TRUCKS

1936 Chevrolet 1-Ton Truck. Price.....\$150.00
